Crawford represented the posted device and look company, which received the letter-carriers' satchels.

Because of this uniform fineness its tiny particles are promptly penetrated, and digested, by the Gastric juices of the stomach, being thus converted into strength long before ordinary flour starts conversion into fat.

Not six per cent. of American flour is equal to PRESTO in nutrition, flavor, and "keeping" qualities. Yet Cake, or Pastry, made from it costs a trifle less
